Address: 312 Stary Materov Pardubice, 530 02, Pardubice, Czechia (Home)

ABOUT ME

- Backend-focused **Node.js Engineer** with 1+ years of professional experience designing and maintaining scalable REST APIs, authentication systems, and PostgreSQL-backed applications in Agile environments. Experienced in building secure backend services using **Node.js, Express, TypeScript, and Prisma ORM**, with hands-on experience in Dockerized deployments, automated testing, and CI/CD workflows.

WORK EXPERIENCE

TECHNICAL SUPPORT EXPERT – AT&T – 13/01/2025 – 03/01/2026 – BRNO, CZECHIA

- Working with internet/voice issues via phone/chat using CRM + guided workflows; document diagnostics and resolutions within SLA.
- Provisioning static IPv4/IPv6: assign blocks, configure gateways (DHCP reservations, NAT, port-forwarding) and verify routing and reachability.
- Configure/repair CPE/routers/ONTs (PPPoE/IPoE, DNS, Wi-Fi bands/channels, QoS); push firmware updates and reprovision profiles.
- Track & hit KPIs: FCR, AHT, CSAT/NPS, SLA compliance; continuously improve via trend analysis.

FULL STACK DEVELOPER REMOTE FREELANCE – KAMSTARTECH – 11/04/2022 – Current – LUSAKA, ZAMBIA

Department: Developer | **Website:** https://kamstar.tech/

Tech Stack:

- **Frameworks:** Angular, React, Vue.js
- **Languages**: JavaScript | TypeScript
- **CSS libraries**: Bootstrap | TailwindCSS
- Skills: HTML5 | CSS | JavaScript | Git | Automated Testing | React

Experience:

• Collaborated with senior developers to integrate middleware, tested and implemented endpoints, adding logging and error handling for API responses, integrating React components into existing projects for SaaS Backends for clients.
• Developed responsive user interfaces for web applications using HTML, CSS, and TypeScript.
• Secured them using OAuth2, HTTPS, and JSON Web Tokens.
• Designed and maintained scalable RESTful APIs using Node.js, Express, and TypeScript.
• Implemented modular backend architecture separating domains into authentication, and other endpoints.
• Authentication & Security Systems, Built protected API routes and authorization layers for authenticated platform features.

Databases:

• Managed schema migrations and idempotent seed scripts using Prisma ORM.
• Designed and evolved relational schemas.
• Implemented analytics tracking and implemented structured JSON-driven content seeding for scalable course creation.

Testing:

• Designed backend testing system using TypeScript test runners (ts-node).
• Implemented unit tests validating.
• Built unified testing commands to improve backend stability before releases.

Development Process:

• Agile environment, CI/CD, handling user stories created as Github Issues.
• Working closely with Stakeholders, developing a roadmap that aligns with their goals.

EDUCATION AND TRAINING

26/09/2022 – 26/09/2025 Pardubice, Czechia
BSC(HONOURS) IN INFORMATICS AND SYSTEMS ENGINEERING University of Pardubice

Website https://www.upce.cz/

LANGUAGE SKILLS

Mother tongue(s): **ENGLISH**

TECH STACK

Digital Skills

Networking
DNS | DHCP | TCP/IP

Programming & Containers

Python | Bash/Linux | Nextjs | Docker | JavaScript | Github

Databases

PostgreSQL | Prisma ORM
